Welcome Screen

Hey, Boomers!

Welcome as we launch into another edition of your fave read. Yes, the most happening comic this side of the galaxy lifts off with Sonic unravelling the Mystery of the Sandopolis Zone. Shinobi encounters more choppy action in Power of the Elements. Captain Plunder & His Sky Pirates feel the long wooden arm of the law and the quest for Tails continues in Zonerunner & The Big Freeze.

Talking of Tails ... see him turn teacher in the News Zone, back for this issue. There's also the latest update on the sega-sational Saturn and Neptune systems. Far out, humes!

STC goes for gold in just two issues as our Easter issue coincides with STC's big five-o! To help celebrate in suitable style, back by popular demand, are those terrific tattoos. Only these tattoos will be gold (and silver). STC ... almost 50 and still looking good!

ARE ALL PIRATES AS STUPID AS YOU?

HERETICS... YOU HAVE NO RIGHT TO SUMMON THE SACRED PYRAMID. ALL WHO BREAK THIS ANCIENT LAW ARE CURSED...

...AND MUST DIE!

OVER HERE, GUARDIAN! I'VE READ THE SACRED TEXTS ... I KNOW ALL ABOUT YOU AND YOUR PYRAMID! YOU WON'T FIND ME SO EASY TO BEAT!

MAINLY BECAUSE I'M NOT **STUPID** ENOUGH TO TRY AND FIGHT YOU!

AND WHY SHOULD I BOTHER WITH ALL THIS HANDY **QUICKSAND** AROUND THE PLACE?

YOU'VE GOT TO LEARN TO USE YOUR HEAD, SONIC!

YEAH? WELL IF YOU'RE SO **SMART** HOW COME YOU LET PLUNDER SNEAK INTO THE PYRAMID?

HEY KNUCKLES, I THOUGHT YOU WERE THE **MASTER** OF THE FLOATING ISLAND. HOW COME THE STONE GIANT ATTACKED YOU?

HE'S FROM AN ANCIENT TIME, SONIC ... HE WON'T EVEN REALISE THE RACE OF PEOPLE WHO ONCE LIVED ON THE FLOATING ISLAND HAVE LONG GONE ...

LISTEN ... I THOUGHT I HEARD A NOISE UP AHEAD!

AND UP AHEAD WE FIND ...

HERE IT IS, MATES, JUST WHERE THE MAP SAID!

BUT AFTER ALL THESE CENTURIES WILL IT STILL WORK, CAP'N?

MEANWHILE BACK INSIDE THE PYRAMID...

SO WHAT IS THAT THING?

IT'S A SEAL, SONIC... IF IT'S SMASHED THE SAND WILL POUR IN FROM OUTSIDE.

WHICH IS JUST WHAT I WANT!

KRAK KRAK

SO LET ME SEE IF I'VE GOT THIS STRAIGHT... THIS SAND WILL MAKE THE PYRAMID SINK BACK UNDER THE DESERT, BUT PERMANENTLY. RIGHT?

THAT'S IT... KEEPING THE TREASURES SAFE FROM PEOPLE LIKE CAPTAIN PLUNDER!

BUT SINCE WE'RE TRAPPED IN HERE WON'T WE...

THE ANCIENT TEXTS TELL OF A SECRET EXIT... OF COURSE YOU CAN'T ALWAYS RELY ON THOSE ANCIENT TEXTS...

I WAS RIGHT! COME ON, SONIC... BEFORE THE SAND COVERS IT OVER!

WHY OH RIGHT. HEY, WHAT DO YOU THINK HAPPENED TO CAPTAIN PLUNDER?

...AND THEN TWO HUNDRED EVIL SPIRITS EACH WITH SEVEN HEADS AND BLAZING EYES ATTACKED US FROM ALL SIDES...

THE PIRATES OF DARK WATER

Mega Drive

game type: ADVENTURE
1 PLAYER

Shiver me timbers! If it isn't Hanna-Barbera, the folk responsible for creating - amongst others - Tom

& Jerry and *The Flintstones*. Their latest production, *The Pirates of Dark Water*, may well become another blockbuster thanks to its Saturday morning run in the U.K.

The game itself is set within the dark watery world of Mer, where evil patches of water are in operation. Only the Treasures of Rule are able to combat this force. A character called Ren, and crew members Ioz and Tula, sail the high seas to face a pirate called Lord Bloth and

The source of the Dark Water is unknown.

Only one thing is certain, it is slowly taking over the whole world!

RATING SYSTEM

his henchmen on a quest for the lost treasure. Only then can Mer be returned to its former glory and the Dark Water controlled.

At the beginning of *The Pirates Of Dark Water* you

select one of the three characters who each possess a weapon (a Dagger, an Ecomancer Energy and a Dragon-Bow). You choose

which of the islands you wish to sail to from a map of Mer. You're then ready to sail once a creature called Niddler offers a description of each location!

The graphics are nothing special, but they do work well and all the animated characters appear fairly large on-screen. Your character has several destroy tactics to combat the enemies, who range from bats to sword-fighting skeletons. Life-refilling 'pick-ups,' such as food and hearts can be found lying around each level.

You'll discover that when you walk into certain characters, a communication screen will appear, enabling you to talk to them. Some characters will trade information for gold, or offer hints on getting through the level, and others will open up doors.

The Pirates of Dark Water is a well-packaged game, not too difficult for its targeted younger players, who I'm sure will discover that it's worth its weight in gold.

ROCK & ROLL RACING

Mega Drive

game type: **RACING**
1-2 PLAYERS

I urge you not to judge this as just another racing game as **Rock & Roll Racing** is really excellent! Originally released on the SNES, this new Mega Drive version features more tracks to get you moving in all the right places!

Rock & Roll Racing is a fast and furious racing/shoot 'em-up that takes place across six planets far into the galaxy. Each one contains strategically laid out tracks and ramps, plus handy pick-ups such as money and armour to prevent your destruction!

You're given the sum of \$20,000 dollars to play with, but you're required to purchase a car from the two on offer before you're ready to 'rock 'n' roll!'. The weapons are a most important aspect to the game, or rather the way you can blow the opposition into oblivion! Some would frown upon blowing-up a friend in order to take the lead, but it's considered fair and legit in this mad-cap racer.

You get to hear some top soundtracks and digitised speech as you speed round the tracks. A US racing

announcer called Larry 'Supermouth' Huffman adds some brilliant commentary and blow-by-blow calls. Having a total of 37 challenging tracks, players get the chance to improve their car's equipment after each track; from buying an enhanced engine or a nitro, to buying extra weaponry.

Two divisions must be raced on each planet before proceeding to the next one. A certain number of points must be scored in each division. As the planets becomes harder, you'll need a better car if you're going to have any chance of beating the opposition. Thankfully, you do get this opportunity, but only if you've won enough cash!

Rock & Roll Racing causes an awesome amount of fun, especially when playing against a friend. It's certainly one of my favourite racing games to date.

THE SMURFS

Mega Drive

game type: **PLATFORM**
1 PLAYER

Once upon a time in the mid 1980's, a tribe of beloved blue people were 'born' and introduced to the world as **The Smurfs**. Each Smurf behaved true to its name, i.e., Brainy was intelligent and Greedy was gluttonous. Life as a Smurf had its problems, mainly due to a big ugly sorcerer called Gargamel and his cat who craved Smurf dinners! Fortunately, however, the Smurfs managed to out-smurf them.

In this new release from Infogrames, the story is that

Gargamel has 'Smurfnaped' Jokey, Brainy, Greedy and Smurfette (the only female in Smurf land - horror!). As controller, you play the part of Hefty Smurf, whose aim is to search the entire country to rescue your friends and finally defeat Gargamel. Not an easy task, believe me.

Once you begin, the quality of the graphics will immediately hit you as they're bright and colourful and very well animated. Particularly striking are the four huge end-of-level bosses who take up most of the screen!

Played over 22 acts, **The Smurfs** is an above average platform game with plenty of variation to hold your interest. As you progress and free each of the four Smurfs, you get the chance to select which Smurf you want to be. Each Smurf is used to solve a particular problem - for example, 'Jokey' should be selected to clear a certain section of a level, as he can throw exploding presents!

Surprises don't end there! **The Smurfs** also features many extra sections, including isometric and 3D stages. The latter looks very impressive with its coming-at-you graphics. Although these kind of levels are becoming more common place in new games, steering a raft down a river or sledging down a mountainside still doesn't fail to impress.

The level of difficulty in **The Smurfs** is quite high, causing frustration if you fail to get past a certain section. Certainly there are areas where improvements would certainly have made a big difference. However, **The Smurfs** is certainly an exceptional platformer and overall is Smurftastic!

NEPTUNE AND SATURN GO INTO ORBIT

NEW SEGA CONSOLES LOOK HEAVENLY!

Watch the skies! Two new Sega consoles will soon be hovering into view, taking game playing into a new dimension.

The first, still known only as **Project Neptune**, is the expected combination of the Mega Drive and Mega Drive 32X in one sleek-looking new box. No more sinister 'black mushroom' sticking out of the top of your Mega Drive!

Our pals at Sega are keeping quiet about the final name for the new unit (it's called the **Genesis 32X System** in the US). No exact release date yet either, but expect it around the Autumn, along with the amazing new 32X version of *Virtua Fighter*. Price for the **Neptune** should be under £200 for the base unit, although special bundle packs may take it a bit higher.

The **Neptune** will be able to run all current Mega

Saturn: How it'll look in the UK - sleek, black and packed with power!

Drive carts as well as the expanding range of 32X games.

Running rings around the **Neptune** is Sega's much-heralded new 'super system,' the **Saturn** (these humes and their little jokes! - *Megadroid*). The **Sega Saturn** sports a nifty new black livery for the UK market (as opposed to the grey case of the Japanese model) and should be hitting shops around the UK in September. Start saving those pennies now because it will cost around £400.

The **Saturn** will only run CD-ROM based software produced especially for it. The cartridge slot shown in the picture on this page is only for special RAM carts that can be used to save game moves, levels, etc.

STC will be taking a closer look at **Neptune** and **Saturn** nearer their release dates. In the meantime, just keep watching those Sega stars!

TAILS PLAYS PICO

STARRING ROLE FOR MILES PROWER AT LAST!

Miles (Tails) Prower, pal of Sonic and STC superstar, is one of the first characters to appear on **Pico**, the first product from Sega's new toy division.

Tails & The Music Maker is one of five Storyware cartridges released with the **Pico** next month. In it, Tails teaches young children how to learn and have fun music through an interactive storybook.

Pico is a 16-bit computer disguised as a brightly-coloured 'laptop-style' console, designed especially for children between the ages of three to seven. It plugs into a normal TV set and

NEWS

You need hands!

Storyware carts plug into the top of it. Each contains a 6-page storybook, which, as the pages are turned changes the picture on the TV. With the aid of the drawing pad section of **Pico** and the attached 'magic pen', children can draw, animate and interact with their favourite characters in numerous ways. The pen can even be used on the storybook pages. Buttons on the **Pico** console can also be used to move characters and choose and cancel selections.

Another Storyware cartridge is *Ecco Jr & The Great Ocean Treasure Hunt*. A younger version of *Ecco The Dolphin* takes children on an interactive undersea adventure. Other characters appearing on **Pico** include Mickey Mouse and Winnie The Pooh.

Pico will be widely available from April with a retail price of £150. Storyware carts will cost £29.99 each.

Q Zone

Q is for Question.
Q is for Query.
Q is for Quandary.
Enter the Q Zone for hints, tips, and help with your favourite Sega games.

Here's a selection of cheats, brought to you Boomers by STC's own whiz-with-a-chip, **David Gibbon**. If you have a game query or question on how to help you complete your favourite game, drop a line to the Q Zone at the usual STC address.

Tips & Cheats

THE LION KING

Following on from STC's recent two-part solution, Here's a cheat for all those Boomers who haven't managed to complete the **Lion King**. Not only does this cheat give you a level select option, but you

also get the chance to make yourself completely invulnerable.

To activate the cheat, from the menu screen, select Options. Go to the Sound Test and press Right, A, A then B on your joypad. Now, press Start and both options will appear.

EARTHWORM JIM

Coming from Dave Perry, the mind behind such hits as *Aladdin* and *Cool Spot*, you'd expect this to be something special. In fact, **Earthworm Jim** proved to be a brilliant platformer, it containing a stack of original ideas and humour. However, it's a tough game to crack but the Q Zone is here to help with a nifty level select cheat:

Start the game as normal, then press Start to pause. On your joypad, press A and Left, B, B, A, A and Right, B, B then A to get the cheat working.

THE INCREDIBLE HULK

The **Incredible Hulk** was something of a phenomena in years gone by, long before a certain blue hedgehog came

on the scene. The Hulk's speciality was turning green and ripping his shirts into shreds when he got mad. If the game has been causing similar problems for you, then this level skip cheat may well help cure you! Play the game as usual, then press pause. Now, press Up, Right, Down and Left. Unpause the game and lose all your lives. When you go back to start another game, you'll notice at the end of the intro screen, a black screen appears which features the level skip cheat. Yippee!

BATTLECORPS

Core Design have been regarded as the saviours of the Mega-CD after they came up with the stunning *Thunderhawk*. **Battlecorps** was a follow-up to that, and features some truly excellent graphics. If you've been stuck for a while, then fear not as a level select cheat is about to come your way! First, go to the Practice Mode and press pause. Then enter B, A, B, A, Right, A, C, Up then Start. The screen will flash to indicate the sequence has worked, then a map should appear back on the character select screen. This map allows you to select any level you wish to play on.
